## EXPERIENCE

### REDspace

*Software Developer*

Toronto, ON

August 2021 - Present

- Collaborated with cross-functional teams in an agile development environment to develop and launch Bleacher Report's internal CMS, streamlining the content creation and publishing process.
- Ensured comprehensive test coverage of Bleacher Report's internal CMS by utilizing Jest and Cypress, resulting in a high-quality and reliable codebase.
- Achieved a 50% reduction in the runtime of the Cypress pipeline in GitHub Actions by refactoring Cypress specs and implementing parallel execution.

### Tasttlig Corporation

*Software Developer*

Toronto, ON

January 2021 - July 2021

- Designed and implemented new features from the ground up starting with UI/UX mockups in Adobe XD, to complete integration full stack in React, and React Native.

### Freelancing

*Brand Development, Web Development, Design, Audio Production & Engineering*

Toronto, ON

April 2014 - Present

- Challenged myself with new technologies and concepts while doing paid work for clients allowed for opportunities to learn very quickly while gaining experience.

### Precision Landscaping

*Web Designer & Developer*

Toronto, ON

May 2014 - August 2018

- Designed, developed and maintained the entire website, flyer, and decals for trucks.

## EDUCATION

### Lighthouse Labs

Web Development Diploma Full Stack Development

Toronto, ON

Oct. 2020 - Jan. 2021

### Ryerson University

Degree in Computer Engineering, Minor in Computer Science

Toronto, ON

2016 - 2017

## PROJECTS

**Tasttlig Mobile Application** *React Native, JavaScript, CSS, PostgreSQL, Express, UI Kitten, Adobe XD*  
<https://apps.apple.com/ca/app/tasttlig/id1571516462>

I lead a small team of 3 people in building and deploying a complete mobile application that coincides with the company's web application, with no prior experience in mobile development/React Native.

**bookends** *JavaScript, React, Bootstrap, Express, PostgreSQL, Sketch (UI/UX)*

<https://github.com/dimontejulie/bookends>

React based book tracking application with social components allowing the user to organize books they've read and stay curious about books they might read in the future.

**scheduler** *JavaScript, React, Sass, Express, PostgreSQL, Storybook, Cypress, Jest, Heroku, CircleCI*

<https://github.com/dlinardi/scheduler>

An interview scheduler application where the user can book and manage an interview with an instructor.

Built as a single page application using test driven development methods.
